

Special IRCE Rates

PASADENA, CA – April 1, 2008 -- In anticipation to the June 9-12, 2008 Internet Retailer Conference & Exhibition in Chicago, 2000Charge, Inc. will be providing special processing rates to the visitors of the 2008 IRCE in Chicago.

“As a first-time participant in last year’s conference, we understand the need for online retailers to have a competitive platform to be able to offer their products and services to a worldwide audience”, says CMO Raphael Berkien.

“Our focus this year is on European billing solutions, as many of our current clients are taking advantage of our services by driving traffic from Europe to their sites, and gaining substantial higher profit margins than in the U.S. market due to sales generated in Euros versus Dollars”.

As a merchant you can bill your European clients in Euros with minimal risk of loss, as our solutions provide guaranteed funds with no possibility of charge backs. To take advantage of the low rate offer, please stop by **booth 353** for details or give us a call at (626) 585-1814 and ask for the special IRCE rate.

We look forward seeing you in Chicago at Booth 353!
